About BEST

BEST, Board of European Students of Technology, is a constantly growing non-profit and non-political organisation. Since 1989 we provide communication, co-operation and exchange possibilities for students all over Europe.

97 Local BEST Groups (LBGs) in 34 countries are creating a growing, well organised, powerful, young and innovative student network.

BEST strives to help European students of technology to become more internationally minded, by reaching a better understanding of European cultures and developing capacities to work on an international basis. Therefore, we create opportunities for the students to meet and learn from one another through our academic and non-academic events and educational symposia. "Learning makes the master", but the final goal is a good working place, therefore we offer services like an international career centre to broaden the horizons for the choice on the job market.

Our priority is to offer high quality services for students all over Europe. Thus, we manage to bring all the partners in the "student - company - university" triangle closer.

About EBEC

EBEC is the European BEST Engineering Competition in Europe, conducted by students for students. Teams that are composed by 4 students from technology fields, regardless of status of their degree, are challenged to solve the tasks that are provided by BEST in 3 different competition levels. The team which proves to be the most efficient, creative and successful at the end of competition is the winner. EBEC project consists of three rounds:

- Local Round: where the BEST teams of every university are selected.
- National/Regional Round: also called EBEC Spain in our case. It's where those teams face each other.
- Final Round: where all the winners of the national and regional rounds face each other.

About National & Regional Round (NRR) Spain

Congratulations, you already passed your local round. As you know, EBEC Spain is a huge project. There are over 80 local rounds. In these rounds, some teams were successful meanwhile others failed. You are between those hundreds of people that succeeded. Don't you have a small butterfly in your guts?

To make you feel even better, just look at this. Working in parallel with us, other 14 NRR are also going on, working in a common project:

NATIONAL & REGIONAL ROUNDS		
Alpe-Adria regional	French national	Portuguese national
Balkan regional	Greek national	Ukraine national
Baltic regional	Italian national	Spanish national
Benelux regional	Nordic regional	Turkish national
Central regional	Polish national	Romania & Republic of Moldova

What to bring

- ID card
- Laptop/Tablet: Highly recommended to bring your own ones, only if you participate in Case Study. During the competition you will only be able to use 2 of them simultaneously. Bring also a Pen drive per team for the presentation deliveries.
- You will find hygiene stuff in the hostel. However, we encourage you to bring your own stuff. Remember flip flops for shower ;).
- Comfortable clothes. You will be working the whole weekend, better if you are not suffering during the competition.
- Fancy clothes for the Official Closing ceremony.
- Money for extra transportation and leisure. We provide transport ONLY for the competition. Extra metro trips depend of you. Also, for social activities in case you want extra food, drinks, souvenirs, etc.
- Lot of BEST spirit for the weekend. You won't be only working, you will meet new friends from other universities of Spain, take the chance and enjoy the event!
